Dear Box Out Bullying -

Bullying is a national epidemic. Sadly, our school is no exception to this trend or the negative consequences that accompany these behaviors. Our community is dedicated to confronting bullying, in all its forms, by using the Olweus anti-bullying program. Our efforts have included assemblies that feature anti-bullying theatre groups. Box Out Bullying is the best anti-bullying assembly we have offered our students.

Box Out Bullying is an intelligent and engaging story that perfectly complemented the concepts and strategies we teach every day. As professional actors, they captured the attention of all students and adapted each performance to meet the developmental stage of each student. Students laughed, cheered and thought. They walked away with important tools and insight to empower them to be stand up citizens and key players in ending bullying.

As we continue to address bullying the lessons and memories from Box Out Bullying will be important stepping stones for progress. We recommend any school or community group to include Box Out Bullying as part of their anti-bullying program.

Sincerely,

A handwritten signature in blue ink that reads "Chris Naspo".
